ORDER FOR PUBLICATION NOTICE HEARING PETITION FOR ORDER TO COMPROMISE INDEBTEDNESS OF T. W. KENDALL.

In the District Court of the First Judicial District, State of Nevada, in and for the County of Ormsby, State of Nevada ex rel R. C. Stoddard, Attorney General et al., Plaintiffs, vs. Nye & Ormsby County Bank et al., Defendants. PURSUANT to the petition of E. O. Patterson, receiver of the above-defendant bank, filed herein, asking for an order permitting him to settle and compromise with T. W. Kendall the claim of said receiver-ship against the said T. W. Kendall, to-wit: \$19,851.36 for a cash payment of \$10,000 in the manner as set forth in said petition:

It is hereby ordered that said petition will be heard on the 20th day of May, A. D. 1912, at 10 o'clock in the forenoon of said day, at the court house of the above-entitled court, at Carson City, Nevada, or as soon thereafter as the matter may be heard.

It is further ordered that a copy of this order be published for two weeks, daily, in the Tonopah Bonanza, a newspaper published at Tonopah, Nevada.

Any and all persons having any interest in the subject matter of said petition may then and there appear and show cause, if any they have, why an order should not be made granting the prayer of said petition.

Dated Carson City, Nevada, April 30, 1912.

FRANK P. LANGAN, District Judge. 5-2 to 5-16-inc.

## CIGARETTE CAUSES A BIG FIRE.

KANSAS CITY, Mo., May 16.—A cigarette thrown into a pile of hay by a tramp is believed to have started a fire which swept a portion of the Kansas City stockyards early yesterday, causing damage estimated at \$50,000.

Fanned by a high north wind, the flames for a time threatened the entire yards. The government tuberculosis testing station was destroyed. For three hours every available fire company fought the flames, fearing they would spread to the new ten-story livestock exchange building.

## SAYS AWAKENING IS A SHIPPING CAMP.

George Farris, a well-known local mining man returned from the camp of Awakening, where he inspected properties, says the Humboldt Star. He states that the showing of gold ore there are exceptionally good and that it will only be a short time when shipments of ore will be coming out.

On the Murray Scott estate, where there is a shaft down on the vein over 100 feet, there is a fine body of shipping ore in the workings. From the 50-foot level down ore is being taken out and sacked for shipment.

At the property owned by Messrs. Dillworth, Wells and Miller there is a fine showing of shipping ore, and as soon as the ground is properly opened this estate will be a regular shipper.

## BUT IT SOUNDS FISHY.

William Kickman, living southeast of town, giggered a monster catfish, which he estimated to weigh about 75 pounds. The big fish, in flopping about, knocked Kickman down and in the tussle escaped. —Fulton (Mo.) Journal.

Well, anyhow, there's one thing that may be said for the Hillville outlaws—they wouldn't have tried to grab off the lifeboats.

## CURIOUS BRIEF FACTS

The Chilean government is erecting from 60 to 70 new school buildings a year.

The world's demand for moving pictures now calls for the use of nearly 55,000 miles of film a year. Refrigerator cars, cooled by ammonia machines operated by natural combustion engines utilizing petroleum for fuel, are being built for a German railroad.

Some of the newer French army aeroplanes are so designed that their wings can be folded and they can be towed on their own wheels behind an automobile.

Fully 1000 singing societies, with a membership of 100,000, are expected to take part in the "Concours International de Musique" to be held in Paris this summer.

Experiments made in France show that by adding 4 cents' worth of peanut oil cake to a cow's winter feed her daily yield of milk can be increased by 10 to 15 cents.

The 1000-mile survey across the Great Australia desert for the purpose of a railway between western and southern Australia gives a hint of the amount of unexplored territory in this island empire.

Forty young Chinese women are qualifying for the medical profession in American universities through the influence of Dr. Yamei Kin, the first woman doctor in China. Dr. Kin, as the head of the hospital for women in Tien-tsin, has also for the last 10 years been training Chinese women for the nursing profession.

Because he was "afraid of the fairies" a laborer named Kilduff threw up an acre of land which he had secured under the laborers act and upon which the Athlone district council proposed to build a cottage for him. The man's objection to the plot was that there was a fort on it, which would have to be removed for his cottage, and "on no account would he interfere with the fairies' home, which they knew one never had any luck after." —London Evening Standard.

Last year the Hebrew Free Loan Association of New York made loans amounting to \$560,625 to 19,949 persons. The biggest number of loans by grade was in the \$5 sums, there being 9,538; next was the \$10 class, with 4,881; next the \$50 class, with 2,684. There were 531 at \$100, 43 at \$150, and 190 at the maximum, \$200. The losses of the society through unpaid loans were a little more than 1/2 per cent. And this low loss wasn't because the indorser had to make good most of the loans. Fully 97 per cent came back directly from the borrowers, and only 2 per cent from the indorsers. The records show that half of the 2 per cent was returned to the indorser.

## MUCH DEVELOPMENT BY SEVEN TROUGHS MONARCH AT FARRELL.

The past week's developments at Farrell have been of an encouraging nature. The Stall Brothers are starting a new shaft on their ground in that camp. Some work is being done by R. H. Young on the Royal ground. On the Seven Troughs Monarch ground an ore shoot 60 feet long has been opened up and our correspondent is convinced that this property has the making of a big first-class mine. The ore is of \$50 grade and will average three feet in width.

From present indications, the long tunnel will cut the ledge at a depth of better than 200 feet. The ore lies along the granite and porphyry contact and shows every indication of permanency.—Review Miner.

## QUARANTINE IS PLACED ON CALIFORNIA CATTLE.

In response to an appeal from the farmers and stockmen of Garfield and that vicinity, the governor of Nevada yesterday issued a proclamation placing a quarantine on all cattle brought into Nevada from California south of the Mt. Diablo baseline. It was claimed by the Garfield farmers that the California cattle are diseased and that this disease will spread among the Nevada cattle. It was for this reason that the quarantine was granted.

## DOG OUTWITS DOORKEEPERS OF WHITE HOUSE

WASHINGTON, May 1.—Secretary of War Stimson's ragged spunky, game, fighting bundle of canine grit and muscle, an Alredale terrier, who accompanies the secretary to his office each day and is the only dog who has daily access to President Taft's private office, was excluded from the executive office for the first time the other day and deep was his indignation.

It took considerable ingenuity on the part of the doorkeepers and Stimson to outwit the terrier. One door tender pussyfooted around and closed the inner door which goes into the office from a rear hall. Then Stimson slid quickly in by the front door and shut it quickly behind him. The dog made a dash around the inner door, but, finding it shut, vented his wrath in a succession of loud barks, then lay down in the corridor to wait for his master.

Once Stimson tried the trick without closing the rear door first. He had scarcely entered the private office when a cannonball of dog hit him squarely on the chest, nearly flooring him.

Because of his strenuous ways the terrier is known to all White House attaches as "T. R." and he gladly responds to the name, though he probably has another.

## CLARK WINS IN NEVADA

Champ Clark wins the Nevada delegation to the Baltimore convention. This was the decision of the democratic primaries held throughout Nevada Tuesday. Ormsby and White Pine counties send delegates or Wilson, while the rest of the counties seem to have gone for Clark by a big majority.

In Ormsby county Wilson won by the small margin of four votes, but enough to send the delegates to Fallon for him.

The vote over the state is reported as light, as the preferential primaries evidently took the keen edge off the contest.

Esmeralda and Nye counties proved strong Clark counties and White Pine was almost unanimous in favor of Wilson. There was no fight whatever in this county for either of the presidential candidates and the voters cast their ballots as they individually thought best. It is all over but the shouting and Nevada will send here delegates to Baltimore or Clark.

## THE FIRST GRAY HAIR SIGN OF AGE

Easy Way to Preserve Natural Color of the Hair and Make It Grow.

A harmless remedy, made from common garden sage, quickly restores gray hair to natural color. The care of the hair, to prevent it from losing its color and lustre, is just as important as to care for teeth to keep them from discoloring. Why spend money for cosmetics and creams to improve the complexion, and yet neglect your hair, when gray hair is even more conspicuous and suggestive of age than wrinkles or a poor complexion? Of the two, it is easier to preserve the natural color and beauty of the hair than it is to have a good complexion.

All that is necessary is the occasional use of Wyeth's Sage and Sulphur Hair Remedy, a preparation of common garden Sage and Sulphur, combined with other valuable remedies for dry, harsh, faded hair. After a few applications of this simple, harmless remedy, your hair will gradually be restored to its natural color, in a short time the dandruff will be removed, and your hair will no longer come out, but will start to grow as Nature intended it should.

Don't neglect your hair, for it goes further than anything else to make or mar your good looks. You can buy this remedy at any drug store for fifty cents a bottle, and your druggist will give your money back if you are not satisfied after using. Purchase a bottle today. You will never regret it when you realize the difference it will make in your appearance.

"Why does a donkey eat this?" asked a Texas teacher of one of the largest boys in the class. "Because he is an ass, I reckon."
